Professional Summary

M.Sc. Software Systems student with strong expertise in data analysis, Power BI dashboarding, full stack development, and AI-powered applications. Proficient in SQL, Python, data manipulation, and data visualization to deliver actionable insights. Experienced in building scalable software systems, developing analytical dashboards, and integrating machine learning models into real-world applications.

Technical Skills

Programming Languages: C, C++, Python, Core Java, Dart

Web Technologies: HTML, CSS, JavaScript, MERN Stack

Backend Frameworks: Django, Flask, Django REST Framework

Databases: MySQL, PostgreSQL

Data Analytics & BI: Power BI, Power Query, DAX, Data Modeling, KPI Dashboards, Data Visualization

Data & AI: Data Analysis, Data Manipulation, Predictive Modeling, Machine Learning, TensorFlow, OpenCV, YOLO

Tools: GitHub

Soft Skills: Communication, Teamwork, Collaboration

Relevant Coursework

Big Data — Data Visualization — Generative AI — Full Stack Development

Projects

SSRetailers – Textile Database Management System

PostgreSQL, Django, React

- Developed a centralized PostgreSQL database managing 10,000+ textile records with high data integrity.
- Built a React frontend integrated with Django REST Framework enabling real-time search and filtering.
- Optimized SQL queries and data models, reducing data retrieval time by approximately 30%.

SmartRide – Bus Management System

Django, PostgreSQL

- Designed and built a smart transport management system during a 24-hour hackathon.
- Automated digital bus pass processing and managed 500+ student transport records.

Fun With M – Generative AI Platform

TensorFlow, OpenCV, Django

- Developed a multi-module AI web platform integrating face recognition and generative AI services.
- Implemented real-time face recognition using OpenCV and CNN models achieving over 90% accuracy.
- Optimized data preprocessing pipelines to improve model inference performance.

Education

Coimbatore Institute of Technology

2023 – Present

M.Sc. Software Systems (Integrated)

CGPA: 7.70 / 10.0 (Till 4th Semester)

Certifications & Achievements

Python for Data Science – IBM

MERN Stack Internship – EduTantr

Government Typewriting Certification

24-Hour Hackathon – SREC

FIT India Club Secretary

Code Relay – 2nd Prize (CIT)
